AUTHORITY AND REFERENCE

Public Resources Code (PRC) 4551 and 4554.5 authorizes the Board to adopt such rules and regulations as it determines are reasonably necessary to enable it to implement, interpret or make specific sections 4512, 4513 and 4561 of the Public Resources Code. Refer-

ence: Public Resources Code sections 4513, 4551.5, 4561, 4584 and 21080.5.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The proposed regulation provides the California Department of Forestry and Fire Protection (CAL FIRE) a mechanism for obtaining biological expertise to assist in ensuring all plans located within the range of the northern spotted owl incorporate enforceable protection measures for the species. The proposed regulation ensures that (1) harvest activities do not result in the incidental take of a northern spotted owl; and (2) Plans are approved in an efficient and timely manner.

SPECIFIC PURPOSE OF THE REGULATION

The purpose of the proposed regulation is to provide CAL FIRE a mechanism for obtaining biological expertise to assist in the process and still maintain scientific integrity in the review process. The proposed regulation is necessary to ensure that (1) harvest activities do not result in the incidental take of a northern spotted owl; and (2) Plans are approved in an efficient and timely manner.

Section 895 Abbreviations

This section adds abbreviations for new definitions for 1) Activity Center, 2) Northern Spotted Owl Breeding Season, and 3) Qualified Spotted Owl Consultant. The abbreviations are necessary for clarity and brevity of rules.

Section 895.1 Definitions

This section adds three new definitions: 1) Activity Center, 2) Northern Spotted Owl Breeding Season, and 3) Spotted Owl Expert. The definition for "Activity Center" establishes criteria for determining occupancy or absence of the northern spotted owl. This definition is needed to effectuate certain northern spotted owl protection requirements stated in section 916.9(g) and (g)(1)–(4).

The definition for "Northern Spotted Owl Breeding Season" establishes the annual period during any year when northern spotted breeding is likely to occur. This definition is needed to effectuate certain northern spotted owl protection requirements stated in section 916.9(g) and (g)(1)–(2).

The definition for "Spotted Owl Expert" describes the type of qualifications, training and expertise necessary for a person to be designated as an "expert" for northern spotted owl habitat assessments and recommendations on whether proposed protection measures

will result in a "take". The definition is needed to ensure professional and credentialed personnel are assisting CAL FIRE on northern spotted owl protection measures.

Section 919.9 [939.9] Northern Spotted Owl

The first paragraph of this section deletes existing reference to "State Employed Biologist", and their necessary qualifications. It replaces this term with "Spotted Owl Expert". The amendment is necessary because the director needs qualified, professional advice on northern spotted owl protection requirements and the State does not have access to qualified State employed biologists due to fiscal constraints.

Other amendments to section 919.9 [939.9] involve 1) replacing the term "State Employed Biologist" with the term "Spotted Owl Expert", and describing how the expert will be used, and 2) adding non-substantive edits for consistency for section numbering and clarification of the terms used for naming the Department of Fish and Game.

The amendment to section 919.9 [939.9] (g)(2) establishes additional operating restrictions within 500 to 1000 feet of an active nest site or pair activity center. This amendment is necessary to ensure protection during the breeding season and qualified entities are reviewing operations to ensure a "no take" determination.

Section 919.10 [939.10] Take of Northern Spotted Owl

Similar to amendments in 919.9, this section deletes existing references to a "designated biologist" and replaces this with "director". This requires the director to make a determination of take. The amendments are necessary to make clear the determination of take rests with the lead agency.

AUTHORITY AND REFERENCE

Public Resources Code (PRC) 4551 and 4554.5 authorizes the Board to adopt such rules and regulations as it determines are reasonably necessary to enable it to implement, interpret or make specific sections 4512, 4513 and 4561 of the Public Resources Code. Reference: Public Resources Code sections 4513, 4551.3, 4551.5, 4561, and 21080.5.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The statutory authority for Sustained Yield Plans comes from the Legislature's direction that the Board adopt regulations to assure the continuous growing and harvesting of commercial forest tree species and to protect the soil, air, fish and wildlife, and water resources in accordance with the policies of the Forest Protection Act pursuant to PRC 4551 and 4551.3. Sustained Yield Plans (SYPs) are supplemental documents to the Tim-

ber Harvest Plan that address long term issues of sustained timber production and cumulative effects analysis for fish, wildlife and watershed impacts on a large landscape basis. The Board recognizes that the lack of a clear process for renewal of existing SYPs in the current regulations is likely to result in steadily diminishing interest in use of existing SYPs and any possible future SYP submissions. The regulatory proposal is intended to improve the functionality and usefulness of the existing Forest Practice Rules for Sustained Yield Plans to promote SYP continued use. The proposed rule language clarifies the review and approval process by which an approved SYP may be renewed for another ten-year period.

SPECIFIC PURPOSE OF THE REGULATION

This regulatory proposal is intended to remedy the lack of clarity on the review and approval of successive SYP documents through specific rule language revision and additions.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Board has determined the proposed action will have the following effects:

- Mandate on local agencies and school districts: None are known.
- Costs or savings to any State agency: None are known.
- Cost to any local agency or school district which must be reimbursed in accordance with the applicable Government Code (GC) sections commencing with GC 17500: None are known.
- Other non-discretionary cost or savings imposed upon local agencies: None are known.
- Cost or savings in federal funding to the State: None are known.
- Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None are known.
- Potential cost impact on private persons or directly affected businesses: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. The proposed regulation does not impose any new operational or plan preparation requirements that would result in an adverse cost impact.

- Effect on small business: None. The Board has determined that the proposed amendments will not affect small business because the proposal adds no new operational or plan preparations cost.
- Significant effect on housing costs: None are known.
- Adoption of these regulations will not create or eliminate jobs within California.
- Adoption of these regulations will not: (1) create new businesses or eliminate existing businesses within California; or (2) affect the expansion of businesses currently doing business within California.

The proposed Rules do not conflict with, or duplicate Federal regulations.

BUSINESS REPORTING REQUIREMENT

The regulation does not require a report, which shall apply to businesses.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code 11346.5(a)(13), the Board must determine that no reasonable alternative it considers or that has otherwise been identified and brought to the attention of the Board would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

INFORMATIVE DIGEST

Summary of Existing Laws

California Building Standards Law (H&SC §§18901 through 18949) grants to CBSC the authority to adopt and approve building standards for publication in Title 24. H&SC §18929 provides that regulations relating to the implementation or enforcement of building standards be published in the administrative part of the California Building Standards Code.

H&SC §18927 provides that CBSC may appoint advisory panels to advise the commission and its staff with regard to building standards. The persons appointed to the panels must be specifically knowledgeable and qualified in the type of work embraced by the building standards in question.

H&SC §18930.5 grants CBSC the authority to adopt, approve, codify, update, and publish green building standards, if no state agency has the authority or expertise applicable to a particular occupancy.

H&SC §§18931.6 and 18931.7 require that cities, counties or cities and counties collect from building permit applicants a fee. The fee is to be sent to CBSC for deposit in a Building Standards Administration Special Revolving Fund. Moneys deposited in the fund are to be available, upon appropriation, to CBSC, the Department of Housing and Community Development, and the Office of the State Fire Marshal for expenditure in carrying out the provisions of California Building Standards Law, with emphasis placed on the development, adoption, publication, updating, and educational efforts associated with green building standards.

Summary of Existing Regulations

Chapter 1 of Part 1 contains the administrative regulations of CBSC in nine articles, describing duties and procedures to be followed in implementation of California Building Standards Law. The standards are intended to ensure the public's participation in the regulatory process for building standards and establish various Code Advisory Committees to advise the commission with regard to the action to be taken on proposed building standards.

Summary of Effect

This proposed action will amend Article 1-9 to add a Green Building Code Advisory Committee for advising the commission on actions to be taken regarding proposed green building standards, and add Article 1-10, City, County, and City and County Building Permit Fees, to implement and interpret the provisions of H&SC §§18930.5, 18931.6 and 18931.7.

INITIAL DETERMINATION OF NO
SIGNIFICANT STATEWIDE ADVERSE
ECONOMIC IMPACT ON BUSINESSES

The regulations interpret a statutory requirement to collect a fee from building permit applicants.

HEALTH, SAFETY, OR WELFARE

CBSC has made an assessment of the proposed code changes and has determined that these changes do not require a report.

COST IMPACT ON REPRESENTATIVE PRIVATE
PERSON OR BUSINESS

CBSC is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. Any cost impacts would arise from compliance with the statute being interpreted and implemented by these regulations.

ASSESSMENT OF EFFECT OF REGULATIONS
UPON JOBS AND BUSINESS EXPANSION,
ELIMINATION OR CREATION

CBSC has assessed whether or not and to what extent this proposal will affect the following:

These regulations will not affect the creation of or elimination of jobs within the State of California.
- ☐ The creation of new businesses or the elimination of existing businesses within the State of California.
These regulations will not effect the creation of or the elimination of existing business within the State of California.

with the statute being interpreted and implemented by these regulations.

CONSIDERATION OF ALTERNATIVES

CBSC must determine that no reasonable alternative considered by the state agency or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

PROPOSED RESEARCH ON A
FULLY-PROTECTED SPECIES
Conducting Surveys, Radio-marking, Banding,
and Blood/Feather Sampling
for the California Black Rail
For publication on March 20, 2009

The Department of Fish and Game (Department) received a proposal from Steven R. Beissinger, University of California, Berkeley, for authorization to take, for research purposes and consistent with conservation and recovery of the species, the California black rail (*Laterallus jamaicensis coturniculus*) (rail). The rail is a Fully Protected species and is also State listed as Threatened. The proposed activities consist of:

- 1) Listening for vocalizing rails and employing playback of tape-recorded, species-specific vocalizations, to determine distribution and status of local populations. The researcher would collect data by interpreting calls received from marsh birds responding to the tape and by listening for and observing individual birds. There would be no approaching nests of the rails unless specifically approved by the Department.
- 2) Capturing and marking the rail with radio transmitters, throughout the year, in Sierra Foothills populations (Yuba, Butte, Placer, and Nevada Counties), for the purpose of obtaining movement and survival data. The captured rails may also be banded with USGS-issued stainless-steel bands. Method of radio-marking will be backpack harnesses or adhesives. Radio-marked birds may be recaptured for radio transmitter replacement to obtain continuous data.
- 3) Taking blood and feathers in Yuba, Butte, Nevada, Placer, and Imperial Counties for the purpose of genetic analysis for the study of population connectivity and to test for West Nile Virus. The captured rails may also be banded with USGS-issued stainless-steel bands.

Steven Beissinger has the required State scientific collecting permit (SCP) to take native wildlife. SCP conditions require that each holder of this permit obtain additional, special authorization from the Department to take a Fully Protected species. The Department would provide the special authorization to Steven Beissinger and his students and/or collaborators to take the rail, through specific written conditions in a letter permit that satisfies the requirement of a Memorandum of Understanding. The geographic scope of this work may be expanded in the future as approved by the Department via the permit amendment process.

Pursuant to California Fish and Game Code (FGC) Section 3511(a)(1), the Department may authorize take of a Fully Protected species of bird after a notice of 30 days has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research by Steven Beissinger is consistent with the requirements of FGC Section 3511 for take of Fully Protected birds, it will issue the authorization on or after April 20, 2009, for a term not to exceed three years unless renewed by the Department. PROPOSED RECOVERY ACTIONS FOR FULLY PROTECTED SPECIES

Recovery actions in southern California for the
California black rail

(*Laterallus jamaicensis coturniculus*),
light-footed clapper rail

(*Rallus longirostris levipes*), Yuma clapper rail
(*R. l. yumanensis*),

and California least tern (*Sternula antillarum browni*)

The Department has received a proposal from LSA Associates, Inc. to carry out various activities in southern California to increase our knowledge of a number of rare species, including the California black rail (*Laterallus jamaicensis coturniculus*), light-footed clapper rail (*Rallus longirostris levipes*), Yuma clapper rail (*R. l. yumanensis*), and California least tern (*Sternula antillarum browni*). The Department's ultimate goal is to ensure the long-term viability of these species in California. It is anticipated that the proposed activities will commence during the spring of 2009. The following objectives have been identified as being essential elements to achieve the stated recovery goal:

(1) Biological activities include surveys for these species in areas that may be subject to habitat creation/restoration or to potential impacts from infrastructure enhancement, energy generation, or other development projects. These surveys will primarily be to determine presence or absence of these species (initially in Orange County's Bolsa Chica area), but may also involve examination of eggs and young in the nest;

(2) Enhancement of nesting or foraging habitat for these species through the removal of invasive non-native plant species and creation of upland retreats.

These species are all State Fully Protected birds, and State and/or Federally-listed Threatened or Endangered species. Anyone capturing or handling these species is required to have a Scientific Collecting Permit (SCP), a Federal Endangered Species Permit, and additional written authorization from the Department for research on Fully Protected species. State and Federal permits are also required to conduct protocol presence/absence surveys for these species.

Pursuant to California Fish and Game Code (FGC) Section 5050, the Department may authorize take of Fully Protected birds after 30 days notice has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 5050 for take of Fully Protected birds, it would issue the authorization on or after April 20, 2009, for a term of two years, with renewals extending up to ten years. Reduction in License Fees

Sen. Bill No. 231 (2005-2006 Reg. Sess.) set the initial and biennial renewal fee at \$790 for physicians and surgeons. It also required the adjustment of the fees if the diversion program were to be discontinued. Bus. & Prof. Code section 2435.2 states that if the diversion program is discontinued, the initial license and biennial renewal fees shall be reduced by an amount "equal [to] the board's cost of operating the diversion program." The diversion program was discontinued as of July 1, 2008. This proposed rulemaking reduces the initial license fee (and biennial renewal fee) to be paid by physicians and surgeons by \$22.00. The new fee is \$783 [\$805 (the current fee) minus \$22 (pro rata share of the cost of the diversion program)]. This reduction is based upon the diversion budget divided by the number of projected licensees (rounded up).
